# Create Your Own Bible Study Using Our Topical Concordance.

1 - Three Versions to Choose From
2 - How To Start
3 - Simple Bible Study Building
4 - Bible Studies With Cross References.
4.1 - Working with the Unique Codes.
5 - Bible Studies For The Experienced
5.1 - Additional Study Material

## 1 -Three Versions to Choose From

The Eliora Topical Concordance to the Bible with Contextual Referencing is available free to download. There are three versions of this work available:-

- Version 1 is designed for those who do not have a web browser or simply prefer to use a PDF viewer for reading documents.There are 10 files in this version thus reducing the number of pages you must navigate while reading, however, this makes word searching all entries more involved.
- Version 2 is designed to be printed to paper. It can also be read using a PDF viewer. All of the entries are in one file making it ideal for word searching.
- Version 3 is HTML based and has several additional features. However, word searching in this version is more involved.

## 2 - How To Start

There are several ways to create your own Bible Study using our Topical Concordance.
You can build simple Bible Studies that focus on only one Topic/Keyword.
For a more advanced lesson, you can build a Bible Study with cross references to other Topic/Keywords.
Additional features available in Version 3 can be employed to develop even more in-depth Bible Studies.

## 3 - Simple Bible Study Building

The most simple way to build a Bible Study is to pick one of the Keyword/Topics from the first column. Read the thoughts in the second column. If the content of an entry interests you, choose the verses from the third column of that entry.

If you are happy to just create simple Bible Studies it does not matter which version of the Concordance you choose.

## 4 - Bible Studies With Cross References.

To build a Bible Study with cross references to other Topic/Keywords, we recommend that you use Version 2 of our Topical Concordance.

Start the same way as for a Simple Study, pick one of the Keyword/Topics from the first column. Read the thoughts in the second column. If the content of an entry interests you, choose the verses from the third column of that entry.

In the third column of many of the entries you will also be offered other Topic/Keywords that are combined with Unique Codes. These will be preceeded by the word "see".

The reason we offer the cross references is that there are often other Scriptures that relate indirectly to the topic where the reader would gain more understanding of the initial verses read. We have also included some references to other works such as common language Dictionaries and books by notable authors.

### 4.1 - Working with the Unique Codes.

The Concordance columns are as follows :-

| Column 1 -The Topic or Keyword. | Column 2 - A thought that comes from the passage being considered. | Column 3 -<br>(a) The verses to read while ensuring that the writers context is maintained.<br>(b) Cross references to other entries. | Column 4 - Unique Code. |
|---|---|---|---|

The codes in Column 4 are based on the first letter of the Topic/Keyword with a number that makes the code unique. In some cases additional letters may also be included in the code. To locate the entry being suggested, begin by locating the Topic/Keyword in Column 1. Topic/Keywords are always in Alphabetical order in our Concordance.

When the Topic/Keyword in Column 1 is on your screen, scroll down until you locate the Unique Code in column 4. Unique Codes are always in loose Alpha/Numeric order.

Sabbath

| | | | |
|---|---|---|---|
| Sabbath | Jesus justifies healing on the Sabbath. | John 7:14-24 | S63 |
| Sabbath | The Lord causes the sons of Israel to keep the Sabbath by not providing food for collection. | Exodus 16:22-36. | S82 |
| Sabbath | God explained the origin of why the Sabbath was given. | Exodus 20:8-11, 31:12-17, 35:2&3. | |
| Sabbath | The land was to have a “Sabbath” of 6 years planting and 1 year of rest. | Leviticus 25:1-7, 18-22. | S96 |
| Sabbath | How breaking the Sabbath was to be handled. | Numbers 15:32-36 | S100 |
| Sabbath | There was a sacrifice to be made on the Sabbath. | Numbers 28:9&10. | S103 |

If you are working with Version 2, you will find it quite simple to search directly for the Unique Code instead of first locating the Topic/Keyword.

## 5 - Bible Studies For The Experienced

For those who already have knowledge of the Scriptures, you can perform Word Searches for known Verse References. Always remember that our Concordance is NOT considered to be an exhaustive work in any context.
Word search the Book name and chapter only and check each entry instead of entering the whole Bible Reference. (Matthew 5 - [Y] | Matthew 5:17 - [N])

Version 3 does allow “word searches” but the method will be controlled by your Webpage Browser.
Place your mouse on the page you wish to search and press the Right mouse button. From the pop up menu, choose to open “this Frame” in a “New Tab”.
Move to the New tab and then use the Browsers option to “Find in Page”. This option is often available under the ≡ symbol at the top right of the Browser window.

### 5.1 - Additional Study Material

In Version 3 we have included a link called Insightful Medley. Under this heading you will find :-

- Chapter Count
- Cross References in O.T.
- Cross References in N.T.
- Derivation of O.T.
- Derivation of N.T.
- Genealogy and Time Line
- Jewish Calendar
- Milk and Honey

The information held in these documents may also be used to enhance your Bible Studies.
